Clovis Municipal Schools Implements Skylert Notification System

Web-based system will give parents access to information on
school-related events via email, phone, and text message

Clovis Municipal Schools announces the district's implementation of Skylert Calling System, a module of the district's Student Information Management System. Skylert will enable the district to have increased contact options with parents/guardians via phone, email, and text message. The school district intends to use Skylert to notify parents/guardians of time sensitive information. Examples of system uses include student absences, low Child Nutrition account balances, and information of an urgent or time sensitive matter such as a school closure or delay.

Clovis Municipal Schools believes the addition of the Skylert System will increase communication between the school and parents.

Parents not utilizing Family Access will still receive Skylert notifications.

The mission of the Clovis Municipal Schools, an alliance highly committed to educational excellence, is to equip each student with the knowledge and skills needed for a productive life of creative thinking, continuous learning, and exemplary character through challenging and engaging learning experiences led by a dedicated, unified team in vital partnership with family, church, and community.
